Tokenomics and supply

Supply, issuance, redemption and fee rules for USDN.

VERSION	LAST UPDATED	STATUS
0.1	November 17, 2026	Draft

1. Token parameters

Parameter	Value
Name	USD Neo
Ticker	USDN
Native network	Neo Smart Chain
Token standard	[confirm: ERC-20]
Decimals	[confirm: 6 or 18]
Native contract address	[Neo Smart Chain contract address]
Peg	1 USDN = 1 US dollar [confirm]

2. Supply model

USDN does not have a fixed supply. The supply grows when USDN is minted against confirmed deposits and shrinks when USDN is redeemed and burned. There is no pre-mine or team allocation: every USDN in circulation corresponds to value received by the issuer.

Supply item	Rule
Maximum supply	[confirm: none, or a stated limit]
Initial supply at launch	[amount]

Minting	Only after a confirmed deposit, by the minter role.
Burning	Only on redemption, or by a holder voluntarily.
Inflation or rebase	None. Balances never change without a transfer.

3. Distribution

USDN is not sold through a token distribution event. It enters circulation through issuance to approved participants, who provide it to the market through exchanges and liquidity pools. Treasury, team and investor allocations: [confirm: none].

4. Issuance and redemption

Topic	Rule
Who can mint or redeem	Approved participants that have completed onboarding checks.
Minimum amount	[amount]
Mint fee	[fee or none]
Redemption fee	[fee or none]
Redemption time	[for example, within one business day]

5. Fees and utility

- Transfers on Neo Smart Chain pay the normal network fee in the native gas asset. USDN itself does not charge a transfer fee [confirm].
- USDN can be used for payments, trading pairs, lending and any application that accepts a dollar-denominated token.
- USDN does not give voting rights or a claim on issuer profits.

6. Supply across blockchains

When USDN is deployed on more than one blockchain, the total supply is the sum of the supply on every network. A live breakdown by network is published on the token page, and the combined supply never exceeds the value of the reserves.

This document is for information only and is not financial, legal or tax advice. Highlighted items in square brackets are still to be confirmed by the issuer. The latest version is always available at neosmartchain.com/tokens/usdn/docs/tokenomics
